Lurking subs and cross shopping our next leased vehicle, specifically a Hybird...

Just curious how your 4xe ownership/ lease has been. I'm looking for all the good, the bad, and the ugly. The tax credit is what's tempting me.

I had a 2021 Sahara for about 2.5yrs 30k miles or so. It had been flawless. Don't love the 2.0t, sounds pretty terrible. Battery life also takes a huge hit in the winter (upstate New York). Started on fire in my driveway a little over a week ago, so that is the end of my 4XE experiment.

Holy shit, did Jeep engineers come out and inspect/collect the vehicle?

[1](#)

dtorgue • 7mo ago

They had an independent firm come out and inspect. They sent a report to Jeep.

Communication from Jeep/Stellantis has been basically nonexistent. I had spoken with someone about it initially. After that they emailed me to provide more details. I eventually heard from the third party engineering firm, but haven't heard a peep from Jeep

Just bought a totally clean 2006 TJ Tub to replace the rotted out tub on my 2006 TJ. Drove all the way to South Carolina from Michigan for it. Super excited!
